ÈRIK CALVO LLEDÓ

I am a programmer in training with knowledge in Java, Python, and databases, skilled in teamwork and project management. Seeking opportunities in software development to apply and further grow my technical and analytical skills.

Education

- Higher VET in Multiplatform Application Development (CFGS)
September 2024 - Present | Institut Poblenou
- Intermediate VET in Microcomputer Systems and Networks (CFGM)
September 2021 - June 2023 | Institut Poblenou

Technical Experience

- IT Technician (Internship)
December 2022 - June 2023 | Institut de l'Esport de Barcelona
- Technical support and issue resolution.
 - Website redesign and optimization.
 - Initial development of a loan management application for sports equipment.

Other Experiences

- Volleyball Coach
September 2022 - June 2023 | Fundació AMPA Lestonnac
- Waiter – Bar & Restaurant Service
October 2023 – May 2024 | Frankfurt Chiribito Bar

Soft Skills

- Teamwork
- Accustomed to working in teams in academic, sports, and professional settings, I have developed strong communication, coordination, and problem-solving skills. I easily adapt to different roles within a group, actively contributing to the successful progress of collective work.
- Responsibility
- I am a trustworthy person with a strong sense of commitment. As the coach of a youth volleyball team, I was responsible for the organization and management of seventeen girls, which strengthened my leadership, planning, and decision-making abilities. I have also taken care of neighbors' pets since I was young, demonstrating attention to detail and reliability.
- Customer Service
- During my time working as a waiter in a bar, I gained hands-on experience in customer service, developing communication skills, incident resolution, and a friendly, client-focused approach. I know how to maintain a professional, empathetic, and proactive attitude, adapting to different customer profiles and situations.
- Growth Mindset
- I am a reflexive and curious person with a strong desire to learn and constantly improve. I am not satisfied with what I already know; I always strive to enhance my work and acquire new skills, both academically and professionally.
